

Spark of Life Name Aid

Remembering people's names can be a challenge for anyone at any time - yet knowing someone's name is a natural catalyst for spontaneous conversation.

When you wear a personalised Name Aid, you give a person with dementia the opportunity to address you by your name and initiate a conversation.

Dementia Care International's Name Aids were developed from over 18 months of research, trials and testing. They have proven to enable even people with low vision to read the name.

As a family member or friend of a person with dementia, can you imagine the joy of hearing your name spoken by them again?

Please note! For health professionals, the Name Aid needs to be worn in addition to their official identification badge.

Example:

Magnet back Clip/Pin back

Enter your name details (up to a max of 8 letters) in the boxes for your memory aid as you would like people to address you. Also please indicate which backing you prefer, either magnet or clip/pin. If you require more than eight letters or for bulk orders, please contact us on (03) 9727 2744 or email: info@dementiacareinternational.com

Name 1:

Magnet back Clip/Pin back

Name 2:

Magnet back Clip/Pin back

Name 3:

Magnet back Clip/Pin back
