

Become a Certified Facilitator of the *Spark of Life*[®] Rehabilitative Program

For Allied Health Professionals, Nurses and Managers

Live via Zoom
March 16th to 19th, 2026

For time zones:
Australasia

Gain the skills and knowledge to implement and run the *Spark of Life* Rehabilitative Program

The *Spark of Life* Rehabilitative Program Course

This 4 day internationally certified course offers participants a new understanding and knowledge of neuro-rehabilitation applied to dementia and the specific detailed strategies for implementation in practice. The *Spark of Life* Rehabilitative Program can be successfully implemented in residential care, and community services, hospitals and palliative care.

The Course is designed specifically for **Allied Health Professionals, Nurses and Managers**.

Included in the course is the comprehensive *Spark of Life* Facilitation Resource Kit (Value AU\$1,650) for reference after the course and as a learning resource for co-facilitators.

Spark of Life Skill-Set

The course equips Facilitators of the Rehabilitative Program with comprehensive knowledge and the detailed *Spark of Life* Skill-Set to:

- Create an interactive therapeutic environment that facilitates rehabilitation and optimises independence based on innovative neuro-rehabilitative techniques.
- Ensure people with dementia feel respected, valued and safe resulting in friendships and social confidence being strengthened.
- Empower the person with dementia to make active choices and decisions.
- Apply the *Spark of Life* Rehabilitative Program Principles for an enhanced experience to other aspects of care including one-on-one connections.

Benefits for Care Services and Facilitators

The profound knowledge and skill-set learned from completing the certified *Spark of Life* Rehabilitative Program Course have demonstrated the following outcomes in practice:

- Creating a shift in participants thinking to a rehabilitative mindset that translates into other areas of care.
- Reducing behaviours of concern, minimising the need for psychotropic medication.
- Reducing falls

In addition participants gain personal fulfilment and increased engagement related to:

- The joy and satisfaction from seeing the positive outcomes of the program.
- Improved relationships between staff, residents and their families.
- Their heightened knowledge and skills.

'My residents with advanced dementia who have participated in the *Spark of Life* Rehabilitative Program have shown great improvements in their wellbeing as well as a reduction in behaviors of concern.

It is really inspiring and refreshing to witness the endless possibilities of positive connection that we are able to create as Facilitators of the *Spark of Life* Rehabilitative Program.'

Nur Sahara Binte Kamsani,
Social Worker, Singapore

The Spark of Life Rehabilitative Program

The *Spark of Life* Rehabilitative Program is an interactive, therapeutic program that facilitates rehabilitation, builds confidence and enhances the emotional health of people with dementia.

This world class program has been thoroughly researched and extensively field tested in practice in diverse cultures around the world.

Whilst developed specifically for people with dementia, the *Spark of Life* Rehabilitative Program **can also be successfully implemented with people who do not have dementia and people with a disability.**

The *Spark of Life* Rehabilitative Program is adaptable to people with any level of dementia.

The program is underpinned by the *Spark of Life* Philosophy that is at the cutting edge of dementia care because it facilitates both positive mental and physical health and generates the possibility of rehabilitation and rementia.

Rehabilitation Outcomes for People with Dementia

Through participating in the therapeutic Rehabilitative Program people with dementia can experience:

- Rehabilitation of cognitive abilities including language, comprehension and memory
- Boosted self-esteem, resilience and the will to live
- Companionship and close emotional connections, counteracting loneliness and depression
- Enhanced independence through the re-learning of skills
- Reduced falls

“The outcomes for each participant in the *Spark of Life* Rehabilitative Program are amazing. We have seen dynamic decreases in falls and disruptive and challenging behaviours. We have seen complete engagement and restoration of dormant language skills. We have seen Re-mentia in action!”

*Karen Leimberer,
Corporate Director of
Life Enrichment Chicago,
Illinois, USA*

“The *Spark of Life* Rehabilitative Program facilitates improved communication skills. My experience has been that participants who may have been withdrawn or socially isolated have used more verbal and nonverbal Language. Others have begun to use sentences with expressive words and feelings.”

*Jeni Winslow,
Occupational Therapist,
Perth, Western Australia*

A Unique Learning Experience

This 4 day course offers a 'boutique' experience for the participants as it is **capped at 12 people**.

The small number means having an unmatched personal experience of learning directly from the two leaders of Dementia Care International in a supportive, compassionate learning environment.

Live via Zoom

The *Spark of Life* Rehabilitative Program Course is provided live via Zoom.

"We have set the bar high and developed an exceptional, compelling and world class zoom experience for every participant anywhere in the world. We provide a learning environment via the internet that at the same time is inspiring, energising and captivating, making it a joy for all participants to focus and concentrate" Jane Verity, Founder and CEO Dementia Care International.

The *Spark of Life* Zoom Experience:

- Provides a supportive, compassionate learning environment.
- Enables participants to engage with increased focus, enabling deep comprehension of the content.
- Gives opportunity to learn and develop new skills from the comfort of one's own home or office.
- Provides face to face connection with course participants clearly seeing the leaders and each other when speaking.

Here is what participants have to say about their zoom experience:

Reykjavik, Iceland

"I have learned so much and never has a seminar captured my attention like this one. My attention has been there 100% the whole time even through zoom."

Nanna Margrét Guðmundsdóttir
Occupational Therapist

Cummins, South Australia

"Before the course - I thought I would struggle staring at a computer screen all day but not once have I felt tired - I've been focused all day - with no trouble."

Tania Hammond
Registered Nurse and *Spark of Life* Master Practitioner

Palmerston North, New Zealand

"The experience of learning by Zoom has been excellent. I've found I could concentrate a lot better because I was comfortable in the familiar surroundings of my office."

Vicki Lincoln
Enliven

"The Rehabilitative Program was the first *Spark of Life* Programme we introduced at Adriel as it was practical and staff and residents could see results and improvements in resident's communication almost instantly. Due to the improvements noted from the Rehabilitative Programme, we received our first Continuous improvement from the New Zealand Ministry of Health external auditors. Continuous improvement is the highest attainable acknowledgment in a New Zealand audit."

Mischeal McCormick,
Owner and Manager,
Amberley, New Zealand

"The Aged Care Standards and Accreditation Agency auditors who have visited the home twice since the commencement of implementing the *Spark of Life* Rehabilitative Program informed us that they are very impressed with the positive outcomes for residents and other stakeholders."

Jan Clark,
Executive Care Manager,
Perth, Western Australia

The Certified *Spark of Life* Rehabilitative Program Course Facts and Information

'This program is culture-building, and I am inspired to apply what I have learnt consistently to enhance residents' engagement, boost self-esteem, and improve the overall quality of care across all homes.'

*Mikaela Shannon,
Clinical Director,
Enliven New Zealand*

Learning directly from the Founder of Dementia Care International

Jane Verity

Jane Verity is Founder and CEO of Dementia Care International and has served in this role since 1993. She is a thought leader and innovator who has developed the life-enriching and rehabilitative *Spark of Life* Philosophy that has strong roots in the Scandinavian health care system.

In Denmark and in Australia, Jane's professional career has spanned leadership roles in geriatric psychiatry and aged care with the particular focus on developing and providing rehabilitation for people who have dementia.

Jane gives advanced mentoring to global leaders in aged and dementia care to support them in achieving best practice. In this capacity, she has been an invited advisor to the Singapore Government on dementia, and the invited representative for Australasia at the 100 Experts Forum in Sweden.

Jane has educated thousands of health care professionals, staff and families in the *Spark of Life* Philosophy around the world. She has authored two internationally published books: *The Art of Good Dementia Care* and *How to Ignite the Spark of Life in People with Dementia*.

Dementia Care International

Founded in 1993 with the focus on humanising dementia care and facilitating rehabilitation, Dementia Care International is the independent organisation behind the *Spark of Life* Philosophy, Rehabilitative Program, and Model of Care. The Philosophy is now implemented and practiced in diverse cultures on 5 continents and has been warmly embraced by indigenous communities in Australia, New Zealand, and USA.

The vision of Dementia Care International is a world where people with dementia can lead meaningful and joyous lives and experience a different future of hope and optimism, where improvement is possible.

Spark of Life Education has at its core to improve the quality of the human connection, building competencies in the psychological and emotional aspects of care.

This focus facilitates a positive shift in attitudes and care practices, and prevents behaviours of concern, reducing the need for psychotropic medication.

Jane Verity

Originally from Denmark, Jane Verity is an Occupational Therapist, Advanced Systems and Family Therapist and Master Practitioner of Neuro Linguistic Programming (NLP).

'It is the absence of genuine attention, respect, and love, which at the end of the day is deeply damaging for the person.

The only solution that is within reach, is at the most basic, honest, humane level through kindness, understanding, and love.'

*Jane Verity,
Founder and CEO
of Dementia Care International*
